Polyjuice Potion

How Polyjuice Potion Works

**Step 1:** A character drinks the Polyjuice Potion.
**Step 2:** That character’s body changes to look like a different character, but it’s really the original character on the inside.

*It is like when someone wears a costume. They may look different, but the person is the same under the costume.*

**Step 1:** Albus and Scorpius drink Polyjuice Potion.
**Step 2:** Scorpius is now in Harry’s body (So we see Harry, but it is really Scorpius on this inside) AND Albus is now in Ron’s body (So we see Ron but it is really Albus on the inside).

Scorpius and Albus drink the Polyjuice Potion.  
Scorpius turns into Harry and Albus turns into Ron.

This is temporary. After a short period of time, their bodies will change back to Albus and Scorpius (their disguises disappear).
